

SUPPLEMENT TO OWNERS MANUAL

FAA Identification

Cessna Models 180 and 185

Serial No.

This Supplement must be attached to FAA Approved Airplane Flight Manual when Landes-Airglas Model L-3000 Main Skis are installed.

PERFORMANCE INFORMATION SECTION.

Take-off: Under the most favorable conditions of smooth packed snow at temperatures approximating 32° F. the ski-plane take-off distance is approximately 10 percent greater than that shown for the landplane.

Landing: Under the most favorable conditions of smooth packed snow at temperatures approximating 32° F. the skiplane landing distance is approximately 20 percent greater than that shown for the landplane.

NOTE: In estimating distances for other conditions, caution should be exercised in that other temperatures or other snow conditions may either decrease or increase these distances.

Date: December 22, 1966

FAA APPROVED
